

AZIENDA AGRICOLA TENUTA DEGLI ANGELI

Limited Edition - Hand-made label with Swarovski elements

When a product from nature originates in a land that, due to its aspect, microclimate and soil composition, is ideal for vine growing, and when this potential is then harnessed by man's passion and competence, which, season after season, he perceives, recalls and utilizes, bringing to the winery the very best that Mother Nature has to offer, something unique can be created.

Pierangelo Testa was the founder of this alliance. Extrap brut degli Angeli 2009 is the latest fruit of the bond between man and the land created by him, and this masterpiece of the vintner's craft practised at his Tenuta degli Angeli wine estate was honoured with the highest accolade for quality at the world's most prestigious international competition.
